VALPARAISO, IND., Aug. 12.—Louis Ferriss, of Cincinnati, O. student at Valparaiso university who was stabbed in the left side late Sunday night by Alexander DeGeorge, of Chicago, a fellow student, remains in an unconscious condition in a local hospital. The Valparaiso authorities have succeeded in getting into communication with Ferriss's relatives.

DeGeorge, a prisoner in the county jail refuses to talk. His wife, in whose apartment Ferriss was discovered by DeGeorge, says she asked Ferriss to call for some books she had promised to loan him. Ferriss stated that he had called for the books and was waiting when he was suddenly attacked by DeGeorge. If Ferriss's condition will permit an X-ray operation will be performed tomorrow to ascertain if a part of the knife blade with which he was stabbed remains in his body.

that have been done and things planned for the future today he said: "The good that any civic organization does to its town is just so much and as much as its members put forth effort, for without effort there is no result."

He told how the chamber has caused to be established and marked three highways through the county seat—the Jackson Highway, the Huntington-Manatus-Culver route, and the Yellow-stone Trail. The travel over these highways is immense.

Fate once heard Billy Sunday and got the revival idea. He proceeded to pull a civic revival through the Cham-

ber of Commerce which lasted five days and nights, set the business men back \$700 in money but ahead many thousands in spirit and aggressiveness.

The Thursday night band concert by the Gary Municipal band are drawing crowds every week that tax the capacity of the public square and are without question the best thing the commerce body has done.

Another big stunt was the Fourth of July celebration this year. Fifteen thousand people came from within a radius of 50 miles and spent the day as guests of the Chamber of Commerce. Everything was free. No other town of its size or larger ever did such a thing in Indiana before.

"We are the axis of 530 miles of macadam roads connecting with all of the hard surfaced highways of the nation," said Mr. Fate. "And then look at this," he added as he handed over a list of "What Crown Point has." Here it is:

Two good railroads and an interurban electric line, the most productive farming country and most progressive farmers in America; makes the best feed grinder and three-row cultivator on the market and which is shipped to all parts of the world; makes the best incubators, piston rings and overalls; has three large green-houses which do wholesale business only; retail stores that make mail order houses cut Crown Point off their lists; three banks able and willing to finance these industries; and others that may come to the city, and last, but not least, THE FINEST BUNCH OF THE GREATEST BOOSTERS EVER.

Incidentally when Fate isn't boosting new roads, state highways and other Chamber of Commerce ideas, he writes letters to Moscow, which have a sling and kick which gets them copied, writes life, fire and burglary insurance and of course is landlord of the

If the verdict of the most severe critics count for anything, the World Phonograph occupies a place held by no other musical instrument in the history of civilization for the price.

The natural advantage of priority, the prestige and power of leadership and the commanding position of the World Phonograph, occupies a place held by no other musical instrument in the history of civilization for the price.

The tone and tone-control, the technical problem of sound reproduction, have been so mastered that the World produces with all the mellowness and sweetness of a violin. It is the "one incomparable musical instrument."

United States—Demands a free and independent Poland and is hostile to recognition of the Soviet government. Japan—Attitude unknown, but has recently effected an armistice with the Russian Bolsheviks in Siberia. Germany—Future German attitude to be dictated by circumstances. Rumania—Reported to be ready to go to war against Soviet Russia.

CZECHS ARE NEUTRAL. Czechoslovakia—Is maintaining an attitude of neutrality, but is believed to be averse to giving military assistance to Poland.

Hungary—Is all ready to go to war against Soviet Russia. The bombshell announcement that France has broken away from the British-Russian policy and will give military aid supposedly on a big scale to the anti-Bolshevik faction in Southern Russia, has overshadowed for the time being the developments in the Russo-Polish war.

Advices from Warsaw said that the Russo-Polish parley is on at Minsk. In the meantime the Russian army is still moving upon Warsaw and violent fighting is reported on the Polish front.

## A WONDERFUL HELP

At Two Stages of Life Lydia E. Pinkham's Vegetable Compound Made Mrs. Fairburn Strong And Well.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the dropsical effect which often develops at such times. It helped me wonderfully. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'Take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."  
—Mrs. R. A. FAIRBURN, 606 Orchard Knob Avenue, Chattanooga, Tenn.  
For forty years this famous root and herb medicine has been pre-eminent successful in controlling the diseases of women. Menstrual ailments could have stood this test of time.
